

Important to purchase a NEBULZER as soon as you can. Order Online!

This is to help each situation and possible future situations!

(average cost is approx. \$30-\$90)

With mask for **mouth and nose**. Purpose is to inhale through mouth and especially each nostril.

You could use a regular attachment, but vital to inhale through mouth, then each nostril.

Nebulize with Food Grade Hydrogen Peroxide (for ozone effect)

Only Get 3% **FOOD GRADE Hydrogen Peroxide** (must say Food Grade on bottle)

Average Dilution = 1 part HP to 4 parts distilled water or saline or colloidal silver

If infected: Nebulize an average of 10-20 minutes up to 3 to 4 times daily depending on need/severity. Some get 35% Food Grade HP, then dilute more (Do not use 35% straight/undiluted for use).

Some people use 3% undiluted but it may burn or tingle or numb tissues for a little while.

The strongest I would suggest is 1/2 and 1/2.

Preventative use = 1x weekly - average 5-10 minutes

Minor needs = 1x daily - average 5-10 minutes

Confirmed sick = 1 to 4x daily depending on severity of need - average 5 to 15 minutes each time.

Notice: Use a less diluted solution to nebulize when need is greater.

We will update this Information as more is revealed. Stay informed!

For Children

Double the dilution part for young children

Preventative use = 1x weekly - average 5 minutes

Minor needs = 1x daily - average 5 minutes

Confirmed sick (severe) = 1 to 4x daily depending on severity of need - average 5 to 15 minutes each time.

Notice: Use a less diluted solution to nebulize when need is greater.

We do not carry FOOD GRADE Hydrogen Peroxide
WE DO USE ONLY QUALITY PROFESSIONAL BRANDS
Your health and life depend on it!

You may pass this information to all that desire to receive it for help.
