## **Essential for Spike S1 Protein issues** (everyone has it to some degree)

## WE USE ONLY QUALITY PROFESSIONAL BRANDS

Your health and life depend on it!

Taking the following enzymes (with only water) a minimum of 30 minutes before mealtime (or SEVERAL hours after the previous meal):

Lumbrokinase (Dosage: start 1-1x daily) size 30 caps 40mg

Bromelain (Dosage: start 2-2x daily) size 180 caps 500mg

Nattokinase (Dosage: start 1-1x every other day)

Sourced from Japan or South Korea, but NOT from China or India. It's about quality.

It will reduce the fibrin clots that are in the capillaries, arteries & veins, which are restricting oxygenated blood flow to the brain & other tissues (and thus microvascular dementia and other issues depending on the person's preexisting weaknesses) and S1 issues.

**Dandelion Leaf Extract:** Dosage: 20-30 drops 1x daily (has a diuretic affect; drink plenty of water). Take 3x daily if symptoms warrant.

Package Purchase from King Institute (ask for \$1 package)

**Dandelion Leaf Extract** 4oz. \$39.95

Lumbrokinase 30 caps 40mg \$39.95
